

École Notre Dame High School Modernization Update

BONNYVILLE, AB (June 19th, 2015)-The modernization at École Notre Dame High School is underway. Throughout the summer, you will see construction happening at the school as we renovate to provide students with a physical building that facilitates 21st century learners, and programming that provides 21st century fluencies.

Although we know that renovations can be intrusive, we at Lakeland Catholic School District and École Notre Dame High School have been preparing to ensure that students receive the same high quality education that they are used to. We are offering the core courses accompanied by a full complement of option courses including, construction, outdoor education, sports medicine, forensics, fine arts, foods and fashion as well as self-directed learning, and dual credit opportunities.

In order for this to happen, we have created three temporary classrooms in the gymnasium, and we are maximizing current instructional spaces to optimize our learning environment.

Our Physical Education Program and extracurricular sports will remain as active and competitive as they always have been. We thank the community of Bonnyville for their continued support in providing us with available venues to host these programs.

The École Notre Dame High School office reopens on August 17, 2015, for registration so if you have any questions please feel free to stop by and speak with Mrs. Guilbault, the Principal. Additionally the Lakeland Catholic School District Central Office (4810-46 Street, Bonnyville, 780-826-3764) is open until July 10th, and from August 4th onwards if you require information.
